

**Unleash Your Civic
Engagement Power:
Vote, Mobilize,
Protect - be ALL IN in
November!**

Our nation finds itself profoundly enriched by the existence of Historically Black Colleges and Universities (HBCUs); institutions tirelessly dedicated to nurturing the potential for their students. Mary McLeod Bethune, the visionary founder of Bethune-Cookman University, famously declared that students "enter to learn and depart to serve." Her words resonate through the generations, echoing in the remarkable achievements of HBCU graduates who have shaped every facet of our world: from the groundbreaking films of Will Packer to the electrifying performances of Megan Thee Stallion, from the artistic brilliance of Kiesha Knight Pulliam and the late Chadwick Boseman to the political leadership of Raphael Warnock and Stacey Abrams. HBCUs have consistently produced leaders who redefine excellence and do so with considerable responsibility.

And now, that legacy of leadership, of transformative impact, rests in your hands.

You, the next generation of HBCU graduates, are poised to claim your place on this esteemed lineage, to carry the torch of service, and to shape the future with your brilliance in a democratizing manner. This November, you have an opportunity to step into that legacy. You can transform the rules of civic participation and engagement. Civic engagement isn't just about casting a vote; it's about shaping the future you want to see. The nation's policies, the very systems that impact your lives, are built by the people, for the people, and powered by your active civic involvement. Your voice, your experiences, your vision for tomorrow – all hold incredible power, and this toolkit will help you leverage that power for election day. Thus, this nonpartisan toolkit equips you for action.
