Tips for playing Votes & Ballots: Digital Edition

★ Once your designated action plan writer or group leader has pulled up this presentation and shared their screen with all team members, we recommend clicking View > Zoom > and selecting, at least, 100% for optimal viewing.

★ Text boxes have been placed in each of the spots where your team should add text to the Action Plan Template. Simply delete “add!”, “add…”, or “#” and get to planning!

★ In a few places, you will see prompts to “copy & paste, as needed!” These apply to sections of the template where teams are meant to ☐ or ✓ certain items. Copy & paste the circle or check, and drag it to the appropriate place on the page.

★ Depending upon the allotted time for Votes & Ballots, your facilitator will provide more information about how to maintain a good pace as you move through the activity.

Executive Summary
What is this action plan for and what does it seek to accomplish?

This action plan was developed in August 2020 by Ramapo AGF VE Team (team / coalition / organization) to communicate our strategy for increasing both the registration and turnout rates of voters at Ramapo College (institution).

The planned activities outlined here will be carried out over the next 9 months or years on and around our campus in Mahwah, NJ. This plan will be implemented by Students, staff, partners (students, staff, faculty, partners, etc.) recruited by Ramapo AGF (team / coalition / org.) in order to accomplish our goals and further institutionalize Ramapo College’s commitment to civic learning, democratic engagement, and youth participation in elections.

CHECK: ✓ copy & paste, as needed!

Is this group of partners diverse and inclusive in terms of:
- fostering leadership from different parts of campus, including students?
- representing different perspectives and areas of expertise?
- access to voters, especially those who are underrepresented in our democracy?

We will meet: 1/wk, 2/mo, 1/mo

specifics: (think: where you’ll meet on campus, if you’ll coordinate via email or something else, etc)
- Remote
- Socially distanced meeting
Commitment

How does the institution and its leadership demonstrate commitment to improving civic learning and democratic engagement?

In regards to civic learning & democratic engagement —

which means promoting the education of students for engaged citizenship through democratic participation in their communities, respect and appreciation of diversity, applied learning, and social responsibility —

our campus mission statement mentions:
  - Student engagement

our campus values include:
  - Active engagement both inside and outside of the classroom

our campus strategic plan mentions a commitment to:
  - Increasing student engagement

CHECK: mark most applicable statement

☑ We can point to the above institutional commitments to support our work.
☑ The emphasis on civic learning and democratic engagement could be increased.
☐ There is no mention of civic learning and democratic engagement—yet!

On campus OR in the classroom, circle all that apply:

we've seen:
  - voter education resources
  - campus leaders promote voting
  - protests / rallies / walkouts
  - on-campus polling place
  - political clubs
  - voter registration tables
  - signage promoting election day

we've experienced:

Landscape

What does assessment data show about the political climate and democratic engagement on campus? What internal and external barriers exist, and what resources/opportunities are there to help the institution be successful?

Voting rate: 45 %

During this year, our:

registration rate: ↑ ↓

voting rate: ↑ ↓

was ↑ ↓ than the national average

* compared to previous major election year

Other data to consider: (think: voting rates by field of study, by race/ethnicity, how are students casting their ballot?)

add...

Challenges

internal
(think: lack of on-campus involvement makes students hard to reach)

- The pandemic and the financial strain it puts on the college.
- Trying to engage students remotely

external
(think: polling location for on-campus voters is miles away)

- Lack of a polling location on campus
- Lack of online voter registration in NJ

Strengths

(think: saw an increase in volunteers following 2016 election)

- Really good AGF team
- People are paying more attention
- Some students are more inclined to engage remotely
Goals
What impact is desired—this semester/year and over the next five years?

Short-term:  (think: Register 75% of incoming students to vote during orientation)
- Provide clear and concise infographics on census for all the ramapo community to see on the CCEC website
- Reach out to clubs that align with our goal of counting hard to count populations: BSU, UAA, Commuters, ALMA, FASA
- Plan out and run successful Constitution Day and Voter Registration Day, and Voter Education Week events

Long-term:  (think: Incorporate civic learning and democratic engagement into the general education curriculum by ________ (year)___)
- Institutionalize the myvoteeverywhere platform on the main Ramapo webpage mid september through the voter registration deadline, as well as on the CCEC webpage, web-self service, canvas, and CSI web page.
- Create and update voter resources (including a checklist) to educate students on voting and voter registration
- Implement the Simple Texting platform at Ramapo

CHECK:  ✓ copy & paste, as needed!
Are these goals SMARTIE? ✓ Specific ✓ Measurable ✓ Achievable ✓ Relevant ✓ Time-bound ✓ Inclusive ✓ Equitable

Reporting & Evaluation
How will this plan be shared, internally and externally? What do relevant stakeholders want to know and be able to do with the information gathered?

We will share this plan . . .

internally, by:  explain how you will share this plan amongst your team and its partners
Providing team members with access/copies of the plan and fostering frequent discussion / referring back to the plan and our goals.

externally, by:  explain how you will share this plan on campus and beyond
Providing anyone who would like to look at our action plan with a copy / virtual access to it.

We want to know:
(think: why students believe it’s important to vote)
- What issues are on students minds
- Why students vote / don’t vote!

We will collect feedback by:
(think: sending a post-election survey to students)
- Sending a short post election survey through Archway
- Sending surveys to particular groups (such as BSU, ALMA)
**Digital Organizing**

To accommodate the changing landscape due to COVID-19, we encourage you to think intentionally about how you’re adapting your tactics and goals toward a digital organizing strategy.

**Guiding Questions**

- How will the COVID-19 pandemic affect how you will accomplish your goals?
- Are your tactics reliant on in-person interaction, or are they translatable to a digital environment?
- Beyond COVID-19, does your plan keep in mind students who are studying solely online and students studying abroad?

**If COVID-19 causes campuses to remain closed in the fall, what are the most important goals in your action plan?**

Use the goals you wrote on the previous page instead of creating new goals. You can also return back to this page after working on your strategy.

*Pro tip: Turn your tactics below into Wild Cards!*

- Are your tactics inclusive of students who don’t rely heavily on social media?
- Are you maintaining elements of interpersonal connection in your strategy even while your tactics are taking place in digital space?

*Because of COVID-19, election laws are constantly shifting and can cause changes to things like election dates, deadlines, and vote-by-mail processes. Make sure to keep up to date with changes by visiting tvote.org/COVID19 and prepare to adjust your action plan as needed!*  

Strategy

What is the work? What are the planned activities?

Use this section as a guide to approaching your strategy. Based upon what you shared in previous pages, circle the option that best represents your team’s estimated level of resources in terms of **people**, **money**, and **time**. Your team will use this resource profile to choose appropriate Tactic Cards and add them to your Strategy poster.

<td>Think about events (big or small) you attend every week or every semester. Save your resources by simply adding voter registration into the mix. Write down the event(s) you have in mind:</td>
<td>If you think students will get into it, start a friendly competition to register voters. The grand prize? Bragging rights, of course!</td>
</tr>
<tr>
<td>Work with staff to incorporate voter registration into the online campus platforms you frequently use. Check one (or, more!) of the boxes below:</td>

<td>Building a relationship with your local election clerk is highly valuable. Plus, you could ask them about establishing a polling place on campus!</td>

<td>Organize a walk/ride to the polls on Election Day. For elections big and small, make it easy (and fun!) for students to come together and cast their ballots. You’ll recruit others along the way, too!</td>

<td>Visit with or email faculty about encouraging students to vote after each of their classes the week leading up to Election Day. Great for a campus where the student-professor relationship is especially influential and will motivate students to act.</td>
<td>Create, print, and post flyers promoting an upcoming election. Flyers are an age-old outreach tactic. Best used as a way to raise awareness rather than to register voters, as follow-through could be low.</td>
