

St. Catherine University

'24-25 Voter Engagement Plan

The St. Catherine University Voter Engagement Plan is developed by the St. Kate's civic engagement leadership team, with a focus on collaborative efforts across campus. Our Voter Engagement Plan is influenced by NSLVE reports, surveys, discussions, and reflection. Our plan highlights strategies and efforts that we believe will maximize voter engagement within the student population and campus community. We lean on our values and our mission to educate our students to lead and influence.

Voting Engagement Leadership

Community Work and Learning / Office of Scholarly Engagement

The Center for Community Work and Learning (CWL) facilitates meaningful engaged learning through community-engaged courses, student employment programs, and civic engagement. Through mutually beneficial partnerships with more than 60 organizations, we provide opportunities for students to practice critical and creative thinking, living out St. Kate's values of social justice and leadership. CWL is part of the Office of Scholarly Engagement.

Civic Engagement Collective

The Civic Engagement Collective is a group of faculty, staff and students that promotes civic engagement to our university community. We want to ensure members of the university community know how to register to vote, where to vote and are fully informed about the candidates and issues with the goal to create a vibrant, engaging and respectful political climate during the election cycle. We also focus on the importance of civic engagement beyond elections and work to promote opportunities for engagement, discussion and learning. The Collective has monthly meetings.

The St. Kate's Civic Engagement Fellowship

The St. Kate's Civic Engagement Fellowship (SCEF) is a fellowship that allows St. Kate's to promote civic engagement. Student fellows collaboratively lead project-based efforts to engage our campus community in democratic/civic education and practices.

Students apply to be part of a cohort of fellows focused on civic engagement and social justice. Fellows work together to encourage the community to be civically engaged. They participate in training and get support in developing their leadership skills to create and facilitate activities. We use Campus Compact's "Social Change Wheel" as a guiding structure.

Goal: Develop and support student leadership in the civic realm to co-create a nonpartisan civically engaged campus through education, dialogue, and action – providing spaces where everyone's voice is heard through full participation in democracy.

Strategies

Inclusion and Accessibility

Create culturally responsive and collaborative materials/programming based on the needs of our diverse campus communities, including online students, multilingual students, 1st generation, etc.

Consider and prioritize voter access issues that influence students, and implement ongoing, diverse and clear messaging, educate transportation options and support all forms of voting.

Education

Promote upcoming election dates and update voter information through printed media, email communication, digital media and tabling—including by providing:

- *Voter resources during Tuesday tabling in the Coeur de Catherine*
- *Democracy and civic engagement events*
- *Digital resources and social media campaigns - collaboration with Publication Design course*
- *Workshops, lectures and discussions*
- *Democracy walls*

Collaboration, Communication & Outreach

Partner with internal and external entities that support our civic engagement efforts, and promote voting education and access to reach all constituents.
