Voter Registration Action Plan

We will send out campus-wide announcements regarding voting registration deadlines, voter registration drives, and information about upcoming elections.

We will hold at least one voter registration drive each semester, including one that coincides with National Voter Registration Day.

We will host early voting on our campuses.

We will create a webpage that offers TCC students, faculty, and staff and one-stop link to voting information.

We will email voting information and links to voter registration forms to online students enrolled in TCC Connect.

We will publicize voting information on social media (TCC Twitter, Instagram, etc.)

We will have students from various clubs create a voter information guide that will be visible on our webpage and our social media accounts.
