

2020 Election Year All in Challenge Action Plan University of Louisville

Executive Summary

The 2020 Action Plan has been developed by the Director for the Office of Student Involvement. This position at the University of Louisville has the responsibility of meeting compliance expectations regarding voter registration information getting to every enrolled student. Since 2016, this position has been responsible for coordinating and overseeing the work to increase civic learning and democratic engagement. The action plan sets out goals like a road map toward increases in voter behavior at UofL. The focus of the plan is campus-wide, but the majority of the short term efforts will be aimed at the Student Government Association to make sweeping changes to increase access and awareness of voter registration information for all students. This plan also aids in focusing activity toward the statistics provided by the NSLVE report. The plan is on-going but includes short term goals for primary and general elections in 2020, as well as long term goals over the coming decade. Many goals also rely on the Andrew Goodman Foundations' Vote Everywhere Ambassador partnership currently in place to help us increase voter registration as well as voting numbers. The majority of the responsibility for this plan falls under the Director of the Office of Student Involvement's purview to initiate requests and proposals for action.

Commitment

As referenced in the university mission below, there is a commitment to community engagement.

"The University of Louisville pursues excellence and inclusiveness in its work to educate and serve its community through:

1. teaching diverse undergraduate, graduate, and professional students in order to develop engaged citizens, leaders, and scholars,
2. practicing and applying research, scholarship and creative activity, and
3. providing engaged service and outreach that improve the quality of life for local and global communities."

Our President looks to build upon the institution's history of community engagement while supporting meaningful engagement in the community as outlined in our quality enhancement plan from 2004-14. Additionally, the freshly minted strategic [plan](#) includes an emphasis on providing out of classroom experiences including internships and service learning.

Landscape

There are currently no plans in place to complete such an analysis. We rely on NSLVE data and reports.

Goals (short and long term)

Voter Registration

- a. Send out annual campus wide-email including voter registration information.
- b. Send annual email to all Gen 101 instructors/academic advisors, including an informational presentation to share with students about registering to vote while at college.
- c. Advise Andrew Goodman Foundation's Vote Everywhere ambassadors to run various voter registration drives throughout the academic year, including but not limited to, National Voter Registration Day.
- d. Submit proposal by March 2020 to Student Government Association to address:
 - a. embedding voter registration information on the university homepage, Blackboard, ULink and other possible sites,
 - b. involving Health Sciences Campus student councils in voter registration efforts, and
 - c. providing link to students regarding voter registration when they are registering for classes.
- e. Purchase ad in first year orientation guide regarding how to register to vote while at college, as funds allow.
- f. Plan a campus-wide event with a student and other planning team focused on Civic Engagement.
- g. Include on line registration link on EngageUofL platform.
- h. Provide annual reminder to Alumni relations/Parents Association to update voter registration when you graduate.

2020 Election Year All in Challenge Action Plan University of Louisville

Voter Education

- a. Keep Office of Student Involvement website updated with voter registration and election information resources.
- b. Add electoral dates to campus calendar.
- c. Put information in various campus newsletters and other sources.
- d. Submit press releases about any recognition UofL earns for voter registration and democratic engagement.
- e. Submit proposal to The Louisville Cardinal student newspaper to collaborate on creating and distributing candidate guides.

Ballot Access

Focus on absentee ballots and maintaining partnership with campus mail room to offer free postage.

Get Out the Vote

- a. Recruit election workers from UofL.
- b. Provide social media and other reminders about voting related deadlines.

Strategy

The strategy to achieve these goals will be limited by the separation of curricular and co-curricular efforts at UofL. Despite a coalition that spans the university in many ways, it has not been able to include influencers that can impact policy and curriculum changes. Therefore our strategy continues to rely on SGA and increasing efforts to encourage student leaders to push for university change across the curriculum and administration of the institution. Other strategies are embedded in the list of goals above.

National Study of Learning, Voting, and Engagement

In 2012, 82.8% of the 19,328 students enrolled at UofL were registered to vote. By 2016, enrollment was up to 20,055 and the percent of registered voters increased to 83.5%. The overall voting rate in 2016 was 63.5%, a 7.2% increase from 2012, when we had 56.3% of our students vote in the presidential elections.

Targets

	2016	2020
Voting rate	63.5%	70%
Registration rate	83.5%	85%

Reporting

This plan will be shared with the coalition members, posted on the Office of Student Involvement website (<https://louisville.edu/involvement/service/voting-information>) and shared with the Vice Provost for Student Affairs to share with upper level administration as he sees fit. Where applicable, we also share updates and information through social media, our [EngageUofL](#) on line platform, and official UofL news outlets.

Evaluation

We primarily have relied on NSLVE data to provide information about our campus's voter engagement. In 2019, the division of Student Affairs hired a director for assessment. Life never before, that position can access surveys and data collected across the campus including participation in national surveys. Beginning in 2020, she will be solicited for suggestions as to what information may already be available as well as how to best evaluate the voting engagement efforts currently being utilized.
